Editorial

*The **Journal of Production Engineering** dates back to 1984, when the first issue of the **Proceedings of the Institute of Production Engineering** was published in order to present its accomplishments. In 1994, after a decade of successful publication, the Proceedings changed the name into *Production Engineering*, with a basic idea of becoming a Yugoslav journal which publishes original scientific papers in this area.*

*In 2009 year, our Journal finally acquires its present title - **Journal of Production Engineering**. To meet the Ministry requirements for becoming an international journal, a new international editorial board was formed of renowned domestic and foreign scientists, refereeing is now international, while the papers are published exclusively in English. From the year 2011 Journal is in the data base COBISS and KoBSON presented.*

The Journal is distributed to a large number of recipients home and abroad, and is also open to foreign authors. In this way we wanted to heighten the quality of papers and at the same time alleviate the lack of reputable international and domestic journals in this area.

In this journal number are published, reviewed papers from 11rd Conference MMA 2012 Advanced Production Technologies in Novi Sad (Serbia) and from "3rd International Conference of Sustainable Life In Manufacturing (SLIM 2012)", which was at the Istanbul in Turkey and. new papers as well.

Editor in Chief

Professor Pavel Kovač, PhD,
